NCR RealPOS™ 70

POS Workstation

Looking for a POS solution that
integrates your business needs?

YES

NCR RealPOS 70 POS workstation—the all-in-one integrated solution

The NCR RealPOS 70 delivers exceptional configuration flexibility
and upgradeability with a variety of integrated options to meet your
business needs and protect your investment.

- **Exceptional flexibility**

  The compact NCR RealPOS 70 delivers exceptional flexibility with a
  variety of performance levels and configuration options to customize
  your POS solution. Select the perfect size touch display for your
  business, and choose from a wide range of upgrade options, including
  integrated biometrics and wireless communications. You can also add
  a graphical customer display for order verification, promotions and
  advertising.

- **Rugged design for retail**

  Reliable and secure, the NCR RealPOS 70 is engineered to
  withstand the demands of harsh retail environments and provide
  years of dependable operation. With powered USB connectivity, the
  RealPOS 70 helps eliminate power bricks for peripherals, simplifying
  cable management.

- **Outstanding serviceability**

  Designed for ease of service, components are readily accessible for
  repairs and upgrades. This simplified serviceability reduces system
  downtime and provides superior terminal availability.

- **Investment protection**

  The RealPOS 70 helps protect your system investment with an
  open architecture, enhanced retail connectivity and a wide range of
  upgrade options. This flexible design allows you to integrate new
  functionality to improve productivity and enhance the customer
  experience.
